**Subject:** RE: Information for congressional staff briefing - Kalamazoo and Ten-Mile Drain fact sheets  
**Attachments:** Kalamazoo - Congressional fact sheet MI - June 2013.docx; Ten Mile Drain - Congressional fact sheet MI - June 2013.docx

Joan & Tom,

Attached are congressional fact sheets for the Allied Paper/Portage Creek/Kalamazoo River site and the Ten-Mile Drain site. I assumed they should be kept to one page, so for Kalamazoo got rid of some extraneous info from the old fact sheet to make room for the new info about Allied Landfill. If you want other info added back in (for more than 1 page), just let me know and we'll take care of it.

For Ten-Mile Drain, we weren't sure whether we should include the line at the top that identifies which member of congress it relates to, since HQ didn't specifically ask for a fact sheet but rather asked for "brief information about the Ten Mile Drain site background and current activities" – so feel free to delete the header line if appropriate. (We left it blank for now.)

-Becky

**Subject:** Information for congressional staff briefing

Mary, Jim, and Colleen,

Jim Woolford, Director of OSRTI, will be providing a Superfund 101 briefing to staff members of the House Energy and Commerce committee. The members of Congress will not be briefed. HQ asked us to develop fact sheets for the Tittabawassee River and Kalamazoo River sites to prepare Jim for any inquiries that may arise in the briefing. They also asked for brief information about the Ten Mile Drain site background and current activities which is pretty much what a fact sheet covers. Attached are the most recent fact sheets from 2012 for KalZoo and Dow. I have no record of a Ten Mile Drain site congressional factsheet, so please use the general format of the attached factsheets. There is no schedule for Jim's briefing at this time. If possible, please provide these to me and Tom by Friday, June 28, 2013.

I am copying our Congressional liaison staff member in order to keep them informed.

Thanks.

Joan Tanaka
